

Statement to Machinery Directive 2006/42/EG

Manufacturer:
Harmonic Drive AG
Hoenbergstraße 14
65555 Limburg
Germany

Mechanical Products

- a) Gearbox Component Sets
HFUC-2A, CSG-2A, CSD-2A, HFUS-2A, CPL-2A, HDUR, HDUA, HDUF, CobaltLine-2A
- b) Gearboxes
CPU-M, CPU-H, CPU-S, SHG-2UH, HFUC-2UH, CSG-2UH, HFUS-2UH/-2UJ/-2SO/-2SH,
PMG,
CSF-Mini, HPG, CobaltLine-2UH, CPM/CPS/CPH, SHD-2SH, CSD-2UH, CSD-2UF

For the purposes of the Machinery Directive, Harmonic Drive gear component sets and gearboxes are not considered as a completed machinery or partly completed machinery but as machinery components that do not fall within the scope of the Machinery Directive 2006/42/EC. Essential health and safety requirements were considered in the design and manufacturing of these gear component sets and gearboxes. This simplifies the implementation of the machinery directive by the end user for his machinery or its partly completed machinery. Commissioning of the machine or partly completed machine is prohibited until the final product conforms to the EC Machinery Directive.

Servo Actuators, Servo Motors and Servo Drives

CHA, CHM, FFA, FPA, LynxDrive, PMA, RSF, CobraDrive, SC-610, YukonDrive, HA-680

For the purposes of the EC Machinery Directive 2006/42/EC Article 1, Harmonic Drive servo actuators, servo motors and servo drives are electrical equipment for use within certain voltage limits as covered by the Low Voltage Directive 2006/95/EC and thus excluded from the scope of the EC Machinery Directive. Essential health and safety requirements were considered in the design and manufacturing of these servo actuators, servo motors and servo drives. This simplifies the implementation of the machinery directive by the end user for his machinery or its partly completed machinery. Commissioning of the machine or partly completed machine is prohibited until the final product conforms to the EC Machinery Directive.

Limburg, 19.06.2013
